Punisher Initiates a *Zone* Offense

The Punisher's battle against crime began in Spider-Man, eventually moved into his own ***Punisher*** title, then spread into ***Punisher War Journal*** and a variety of one-shots, guest-starring roles, and graphic novels. In 1992, the war escalates as the Punisher lures his enemies into the ***Punisher War Zone***!

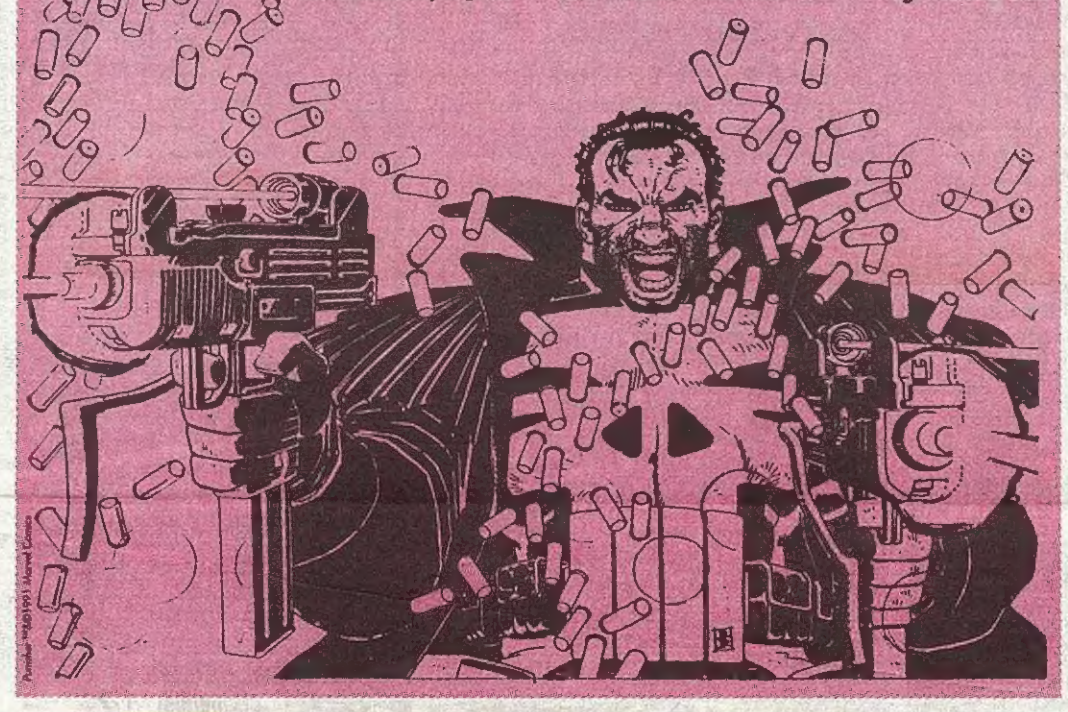
Punisher War Zone, the first title in Marvel's 1992 "Big Guns" promotion of series debuts, is the third monthly Punisher title. Unlike the first two titles, which try to maintain regular creative teams, ***Punisher War Zone*** is aiming for a "***Legends of the Dark Knight***" approach--that is, the series will be made up of story arcs by a variety of top-name creative talents.

The first storyline, a six-parter, is written by Chuck Dixon (who is already familiar to ***Punisher*** fans through his work on the flagship ***Punisher*** title), pencilled by John Romita Jr., and inked by Klaus Janson. While ***Punisher*** fans haven't thus far seen John Romita Jr.'s interpretation of the Punisher, that won't be true by the time ***Punisher War Zone #1*** debuts; in December, Marvel is releasing ***Punisher-Ghost-Rider-Wolverine: Hearts of Darkness,*** a prestige-format one-shot that is JRJr.'s first shot at illustrating Frank Castle.

The first six-issue storyline takes the Punisher into the ranks of the Mafia, where he is a wiseguy operating under the name of Johnny Tower. His odyssey into the world of organized crime is a lonely one, though, because a bitter argument has led Microchip to leave the Punisher, vowing never to return. Even without Microchip, it seems that the Punisher's infiltration is succeeding--until one member of the family begins to suspect his true identity.

Future contributors to ***Punisher War Zone*** include Ron Wagner, Larry Hama, Steven Grant, and Doug Braithwaite. The length of each story arc will vary depending on the story itself; the storylines in Punisher War Zone will remain separate from the other two titles (just as ***Punisher*** and ***Punisher War Journal*** run separate storylines). Marvel is preparing a special die-cut cover for the premiere issue of ***Punisher War Zone,*** resembling a series of bullet holes across the cover. ***Punisher War Zone #1,*** a $2.25 comic, is scheduled for release on January 16th; subsequent issues of the title will carry a $1.75 pricetag.

by WAYNE LEE



Perez Brings His Flare to Hero Comics

George Perez, acclaimed artist who has been involved with (in varying degrees) two of this summer's biggest multi-crossover series, will take on a new multi-crossover series next spring and summer. Unlike ***Infinity Gauntlet*** or ***War of the Gods,*** Perez's next multi-hero extravaganza will appear under neither the Marvel nor DC imprint, but from Hero Comics instead.

Perez has agreed to supply the covers and the finished interior art for the six-part crossover that will begin in ***League of Champions #5*** next May, then continue into ***Southern Knights #35, Flare #12, League of Champions #6, Southern Knights #36***, and conclude in ***Flare Annual #1*** in July of '92. The storyline will involve the characters from all three books.

Henry Vogel, creator of ***Southern Knights***, will co-write the six-part storyline with Dennis Mallonee, writer of Flare and Legue of Champions. According to Hero Comics, Comics Interview Group is reviving the Southern Knights specifically for this six-part series.

Perez will supply the finished pencils and rendering over initial layouts by six different artists (Mark Propst, Howard Simpson, Paul Abrams, Lou Manna, Scott Clark, and one yet to be determined). His first work for Hero Comics will appear before this six-part storyline kicks off, though; Perez will supply covers for the first issue of ***Champions Classics*** this month, and may do other Hero Comics covers as well.

The multi-part storyline of the spring-summer crossover series details an attempt by the Celtic goddess Morrigan to gain control over time itself. Morrigan allies herself with one of Flare's most deadly foes; before long, all but one of the heroes are scattered into other worlds, and it's up to the one remaining hero to find the missing teammates and stop Morrigan while there's still time...

by CLIFF BIGGERS

A Royal Treat for Prince Fans

Prince's latest album, ***Diamonds and Pearls,*** is climbing the charts rapidly--but very soon now, Prince will appear in a new medium for him. In early November, DC will release ***Prince: Alter Ego***, a special one-shot comic that stars the Purple One in his own fantasy adventure.

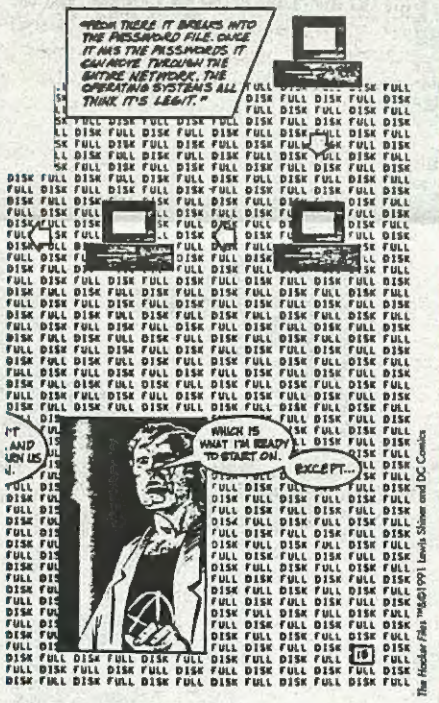
The unusual story for this comic pits Prince against a man from his past who has found a way to turn music into an incredible destructive force (even moreso than ***Graffiti Bridge***..). As you might expect, a musician could find this to be a disturbing concept--so Prince sets out to stop him before it's too late.

Prince: Alter Ego is written by Dwayne McDuffie and illustrated by Denys Cowan. The cover to the one-shot comic from Piranha Press is illustrated by Brian Bolland-- at Prince's request, because he is supposedly quite a fan of Brian's work! ***Prince: Alter Ego,*** a 32-page full-color comic priced at $2, should be on the stands at about the same time you read this.

by KIM B. PEARSON

Get With the Program With Hacker Files

The DC universe is a busy place; with all those superheroes and super-villains running around, you can be sure that there are a lot of computers working overtime to keep up with all the data on these guys. Add to it the normal demands for data processing, and you can see just how important computers are in the DC universe--and just how devastating it could be if those computers went awry. Now you begin to understand the importance of Jack Marshall, a renegade computer designer also known as Hacker. Later this fall, you'll get to meet Marshall--and to see him in action--in the first issue of his ongoing series, ***The Hacker Files.***



"FROM THERE IT BREAKS INTO THE PASSWORD FILE. ONCE IT HAS THE PASSWORDS IT CAN MOVE THROUGH THE ENTIRE NETWORK. THE OPERATING SYSTEMS ALL THINK IT'S LEGIT."
WHICH IS WHAT I'M READY TO START ON.
EXCEPT...
The Hacker Files ™&©1991 Lewis Shiner and DC Comics

In ***The Hacker Files #1***, something has gone wrong with the Digitronix computer system that links the entire DC universe--and unless someone can straighten out the problem right away, the problems may become fatal. An error at the Pentagon has resulted in a potential disaster, and only Jack Marshall can avert global destruction. However, Marshall's unorthodox methods seem so threatening to the government that they're not sure which they fear most, Marshall or worldwide holocaust...

The Hacker Files, a monthly ongoing series, is written by award-winning science fiction author Lewis Shiner, who has previously written ***Time Masters*** and ***Wild Cards*** for comics. The series is illustrated by Tom Sutton and Mark Buckingham. While The Hacker Files isn't a superhero comic book as such, it is firmly rooted in the mainstream of the DC universe, which means that the possibility of superhero crossovers exists.

The Hacker Files #1, a $1.75 New Format comic book, is scheduled for November 14th release.

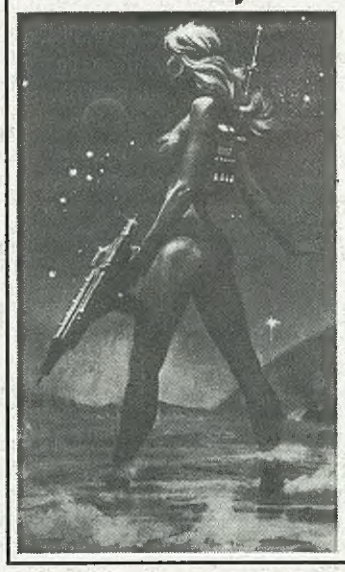
Comics Discover Amelia Earhart!

Amelia Earhart, missing for over fifty years has been found--and she's on her way to your local comic shop in December. **In Thin Air,** a new one-shot written by *Steve Seagel* and illustrated by *Ken Holewczynski,* spotlights the mystery surrounding Earhart's disappearance in the middle of a round-the-world flight. While no one is absolutely certain whatever happened to the famous aviator, there are some carefully-researched theories that explain what ended her ill-fated trip. **In Thin Air** will be published in two different versions, each having a different four-page ending covering one of the two most likely endings to her flight. The two versions will have slightly different cover designs so that fans can immediately distinguish the two. **In Thin Air** is priced at $2.95.

Move Over, Barbarella--Here Comes Galaxina!



Galaxina ™ &©1991 Crown International Pictures

Galaxina earned a place in cult-film history as the first film to star *Dorothy Stratten* before her tragic murder. The story of Dorothy Stratten so overshadowed the story of this entertaining low-budget film, though, that many have forgotten that **Galaxina** was pretty entertaining on its own! The film followed the exploits of Galaxina, the sexiest android agent in the known universe. If it sounds like the premise of a comic book, you're absolutely right: it will be the premise of a comic book beginning in December, when Aircel debuts **Galaxina** as a four-issue limited series.

In the new series, Galaxina and her new partner, the somewhat reluctant Roger, venture to a treacherous, untamed planet to track down one of the galaxy's vilest criminals who has stolen a top secret weapon. Galaxina and Roger are prepared to do battle with the criminal--but they aren't prepared for a confrontation with the planet's natives, a race of giant lizard people whose primary concern is who they get to sacrifice first.

Galaxina is written by *Mike Shoemaker* and illustrated by *Leonard Kirk* and *Terry Pallot. Dave Dorman* supplies the painted cover for the first issue. The first issue, scheduled for December release, is priced at $2.50.

Spirit Soon to Vanish

It's hard to believe, but Kitchen Sink's **Spirit** comic book is less than six months away from the end of its run. With the January '92 release of **Spirit #87,** Kitchen Sink will have completed its plans to reprint every Spirit story in easily affordable comic book form. In order to wrap up the series with **Spirit #87,** Kitchen Sink will include five stories in each of the last two issues of the comic; this means that fans will get 29 pages of story instead of 28. These final issues will reprint the legendary *Will Eisner-Wally Wood-Jules Feiffer* **Outer Space Spirit** storyline; this last-ditch attempt to revitalize the Spirit for the 1950's newspaper strip market failed, though, and the Spirit was cancelled shortly thereafter. Those final stories will be accompanied by Will Eisner commentary discussing the stories and the reactions to them. **Spirit #86** and **#87** are scheduled for December and January release, respectively.

The Spirit ™ &©1991 Will Eisner

Getting to the Root of the Problem...

Ever wonder what happens to all those bodies that Swamp Thing abandons? Well, we assume that they're recyclable--but when a boy buries a part of one of the husks to see just what takes root, he begins to wish he'd left well enough alone! **Swamp Thing #116** shows the monstrous results of his macabre gardening in a story guest-written by *Dick Foremon*; Foreman is remembered by many fans for his offbeat "possessed dog" story in **Hellblazer #32.** *Shawn McManus* is the illustrator of the story, and *Tom Taggart* supplies a special photo cover. **Swamp Thing #116** is scheduled for December 26th release.

TTTTT's Companion is Extinct

Tales Too Terrible To Tell, NEC's comic devoted to reprinting classic pre-code horror work of the 1950's, continues in December with the release of **TTTTT #4.** The 64-page comic reprints eight stories from the 1950's, installments of Terrology: The Collector's Guide to Pre-Code Horror Comics, and more, including a classic *Steve Ditko* electrocution cover. **TTTTT#4** is priced at $3.50.

NEC is adding a companion comic, **Extinct,** to its line in December as well; Extinct is devoted to preserving some of the more "oddball" comic book stories from the pre-code days. "The Golden Age of Comics produced some memorable material as we all know," NEC said, "but there was no lack of unintentionally bizarre comics and stories which a lot of folks would just as soon forget. But we won't let them--and what's more, we're bringing them back!... You only thought you knew what Terrible was..." **Extinct #1,** a $3.50 comic, features 64 black-and-white pages with four-color covers.

Marvel Recognizes Another Milestone

1991 marked the 30th anniversary for the Fantastic Four, and Marvel celebrated with a Milestone Edition of **Fantastic Four #1**. Since 1992 marks the 30th anniversary of Spider-Man, can you guess what Marvel is releasing in Milestone Edition format to kick off the new year? Nope, not **Amazing Spider-Man #1** (that comes later)--**Amazing Fantasy #15,** the comic that first introduced Spider-Man to the world. Like all Milestone Editions, **Amazing Fantasy #15** will include all of the original ad and story pages. This is one case where the inclusion of this bonus material is a real treat for the fans, though; while most of you have read Spidey's first appearance in **Amazing Fantasy**, hardly any of you have had the chance to enjoy the three backup fantasy tales by Spider-Man co-creator *Steve Ditko* that filled out this issue! **Amazing Fantasy #15 Milestone Edition,** a $2.95 comic, is slated for January 23rd release.

G-8 And His Battle Aces ™ &©1991 Argosy Communications

Gee--It's G-8!

The Shadow, Doc Savage, the Spider--all of them are well-known pulp heroes who have found new life as comic heroes in the 1990's. In December, another classic pulp hero finds a comic book home as **G-8 and His Battle Aces** comes to comics courtesy of writer *Chuck Dixon* and artist *Sam Glanzman*. **G-8 and His Battle Aces** is a pulp-era aviation series that combines the romance of bi-plane action with the adventure-hero. Published by Blazing Comics**, G-8 and His Battle Aces #1** will feature a cover by *Timothy Truman* and *George Evans*. **G-8 and His Battle Aces #1,** a full-color comic book, is priced at $1.50.

Shocking Revelations in Electric Ballet

The Industrial Revolution had lasting effects on society, effects that helped to form the world in which we live today--but in *F. Anthony Jillson*'s **Electric Ballet**, readers will see a very different Industrial Revolution with much more unusual effects on society. **Electric Ballet** is described by publisher Caliber Press as "a story of fantasy and adventure which is a revisionist history of the Industrial Revolution, the ensuing environmental crisis, and the effects on future generations. In this series, the industrialists have discovered a device called the Zoom Machine which allows travel through sub-atomic clouds and within, they have discovered forces which will allow them to manipulate the structural fabric of Earth itself for their own material gains." This manipulation soon disturbs the balance of elemental forces on Earth, though, and before long, mankind's existence is threatened. **Electric Ballet #1,** the first issue of a six-issue limited series, is priced at $2.50; look for it in December.

Electric Ballet ™ &©1991 F. Anthony Jillson

Bloodlines Is a Real Family Affair

Punisher: Bloodlines may seem vaguely familiar--but it's not a reprint book. It is, however, a newly-titled version of **Punisher: Family Affair**, a book originally scheduled for release this past August. **Bloodlines** reunites the Punisher with his creator, author *Gerry Conway; Dave Cockrum* and *Jeff Albrecht* handle the art honors for the 48-page bookshelf-format comic. In the one-shot, the Punisher must save the children of a slain DEA agent; however, it is soon revealed that the agent's adopted son is actually the natural son of the drug lord himself! The Punisher views his mission of mercy as an opportunity to make up for his failure to save his own family from death at the hands of criminals, and he's determined that the drug lord will never reclaim the son that the DEA agent had tried so hard to save from a life of crime. **Punisher: Bloodlines,** a $5.95 comic, is scheduled for December 19th release.

Hot Artist Contributes Flaming Carrot Cover

Todd McFarlane, fan-favorite artist who recently departed from the Spider-Man title after more than a year of taking it to the top of the sales charts, has contributed the cover for **Flaming Carrot Comics #27**, the finale of a three-part crossover with the Teenage Mutant Ninja Turtles.

"We had considered just surprising everyone with Todd McFarlane," *Bob Burden*, the Flaming Carrot's creator, said, "but some of our regular readers may not have gotten hold of the issue. This cover will hopefully make up for the previous issue, which came out ahead of time and caused some confusion.

Flaming Carrot™ & ©1991 Bob Burden, TMNT ™ &©1991 Mirage Studios. Art

Todd's helping me out in a pinch here, and I'm really pleased it turned out so good. This is the first time I've had anyone else do a cover, and he did a great job... He offered to do a guest cover and I sent him some roughs and suggestions for what the cover might look like. When he sent it back, I touched up a few things and then colored it. It definitely has a **Flaming Carrot** feel to it, but it is really genuine Todd McFarlane and not a practical joke as one or two readers thought..."

Flaming Carrot #27, the final installment of a Teenage Mutant Ninja Turtles crossover, is scheduled for early October release.

DC's Loco for Lobo

Dc's Vice President of Sales and Marketing, *Bruce Bristow*, recently revealed to **CSN** more about what fans will find in the previously-announced Lobo slipcase package. Bristow blames it all on Lobo. "Listen, he made me do it," Bristow said. "This big (and remember, I'm a 6'4" guy saying he's big), deathly pale, chain-wearing, red-eyed guy with a really big knife came in and said, 'Bristow, yer gonna put The Wit and Wisdom of Lob in all those fraggin' slipcases, and if any fanboy bitches, just send him to me.' So we put together a 64-page volume of The Wit and Wisdom of Lobo, and added it to the slipcase package... Unfortunately, we couldn't find anything particularly witty or wise that he'd ever said. So all 64 pages of the one-time only Wit and Wisdom of Lobo are completely blank!"

Lobo ™ &©1991 DC Comics

Bristow also gave a rundown on just what fans would be getting for their $29.87: (1) **Lobo: The Last Czarnian**, a 112-page trade paperback bearing a $9.95 retail price; (2) **Lobo's Greatest Hits,** a 176-page trade paperback priced at $12.95, featuring 142 pages of reprints and 34 all-new pages by some of the biggest names in comics; (3) **The Wit and Wisdom of Lobo**, featuring cover art by Simon Bisley; (4) **8 original Lobo postcards** by Simon Bisley, Keith Giffen, Garry Leach, Kevin Maguire, Mike McKone, Mike Mignola, Kevin O'Neill, and Walt Simonson, available only in this slipcased set; and (5) **Lobo Slipcase,** featuring Simon Bisley art from last year's miniseries, also available nowhere else. And there you have it! The entire set is priced approximately $5 less than the retail value of all of the components--but as Bruce Bristow points out, several parts of this slipcase set will only be available as a part of the set. Be sure to reserve the **Lobo Slipcase Package** with your local comic shop as soon as possible--and tell 'em that you heard about it in **CSN**!...

The Unending Question...

The Question Quarterly is coming to an end in December with the publication of **Question Quarterly #5**--but that doesn't mean that the Question himself is fading into oblivion. DC already has a **Question Special** scheduled for March 1992 publication and a **Question Annual** in the works for spring-summer '92; after that, other Question projects are in the planning stages, so the popular hero most certainly isn't being abandoned. **Question Quarterly #5** will contain the **Rashomon**-like story previously announced for **Question Quarterly #4**; this tale presents the Question's assault on Myra from several different perspectives. *Denys Cowan, Mike Baron, Shea Anton Pensa, Mike Gold, Mike Mignola, Mike Manley,* and *Kelley Puckett* all contribute to this 48-page storyline. **Question Quarterly #5**, a $2.95 comic, is scheduled for December 19th release.

Rigging Up Your Shadowrun Campaign

The Street Samurai has one, so why shouldn't the Rigger get one? **FASA** is set to release the new **Rigger Black Book** for **Shadowrun**. This volume details everything that the rigger needs to get his act--and his friends'--in gear. Included in this volume is information on all sorts of vehicles, their weapons, and surveillance equipment, not to mention new cyberware. Also covered in this volume are newly expanded vehicle rules, so that the rigger can make his actions that much more effective.

So, make good your getaway and head down to your local shop in November to pick up the new **Rigger Black Book** for only $15.00. It could make the difference...
